

THE SEVEN OBJECTIVES OF ASSOCIATE CHAPTER EXCELLENCE A GUIDE FOR ASSOCIATE CHAPTER OFFICERS & ADVISORS 2017

OVERVIEW

Created in 2015, the Seven Objectives of Associate Chapter Excellence report is a resource to assist officers and advisors in the ongoing development of their associate chapter. The report includes questions that both compare the chapter to the standards established by the National Fraternity, as well as to the other fraternity chapters on campus. Additionally, the report includes all of Pi Kappa Phi's Minimum Chartering Requirements.

Chapter performance is evaluated across each of the following areas: Governance, Growth, Member Experience, Branding & Communication, Scholarship, Service & Philanthropy, and Campus Involvement. The Fraternity believes achieving excellence in each of these seven objectives is critical to developing a leading chapter and providing a positive experience for chapter members.

The Seven Objectives of Associate Chapter Excellence report is updated monthly by the chapter officers and submitted to the Leadership Consultant. The chapter's score in each of the objectives determines whether the associate chapter is progressing as expected toward chartering. The levels of achievement are as follows:

Zero Stars: The associate chapter is performing below Pi Kappa Phi's minimum expectations

One Star: The associate chapter has established sufficient infrastructure and developed an appropriate level of brotherhood to proceed to the next phase of the chartering process

Two Stars: The associate chapter is exceeding Pi Kappa Phi's minimum expectations and is prepared to petition the National Council to charter

Three Stars: The associate chapter is qualified to charter and has demonstrated an ability to create a leading chapter by providing a positive experience for its members

SCORING

Associate chapters receive a score within each of the objectives, as well as a composite score. In order to be awarded **One Star** in a given objective, a chapter must complete ALL of the items listed. **Chapters cannot reach Two Star or Three Star status without first achieving One Star status.** To be awarded **Two Stars** or **Three Stars** in a given objective, the chapter must then complete a pre-determined number of additional best practices. In any given objective, there are more best practices than needed to attain Three Star status.

A chapter's composite score is determined by averaging the number of stars earned across each of the seven objectives using the following ranges:

3.00-2.25 average = Three Star Chapter

2.24-1.50 average = Two Star Chapter

1.49-0.75 average = One Star Chapter

0.74-0.00 average = Zero Star Chapter
