TED is a nonprofit devoted to spreading ideas, usually in the form of short, powerful talks (18 minutes or less). TED began in 1984 as a conference where Technology, Entertainment and Design converged, and today covers almost all topics — from science to business to global issues — in more than 100 languages. Meanwhile, independently run TEDx events help share ideas in communities around the world. Their mission is to spread ideas.

The mission Pi Kappa Phi Fraternity is to create an uncommon and lifelong brotherhood that develops leaders and encourages service to others for the betterment of our communities. Your fraternity values common loyalty, personal responsibility, achievement, accountability, campus involvement, responsible citizenship and lifelong commitment.

In an effort to merge the TED and Pi Kappa Phi mission and values, this resource contains TED Talks around the area of manhood, friendship and mental health.

The idea is really simple. Watch a TED Talk together at a chapter meeting, with Big Brothers and Little Brothers or as part of the associate member meetings and create conversations.
