

Vault™ Deposit Split options

We make it easy for you to direct funds from OmegaFi to multiple accounts. Funds may be deposited into more than one local bank account and/or Vault™ Bill Pay account(s). There are two different deposit split options to choose from, ensuring that we can best suit your chapter's needs.

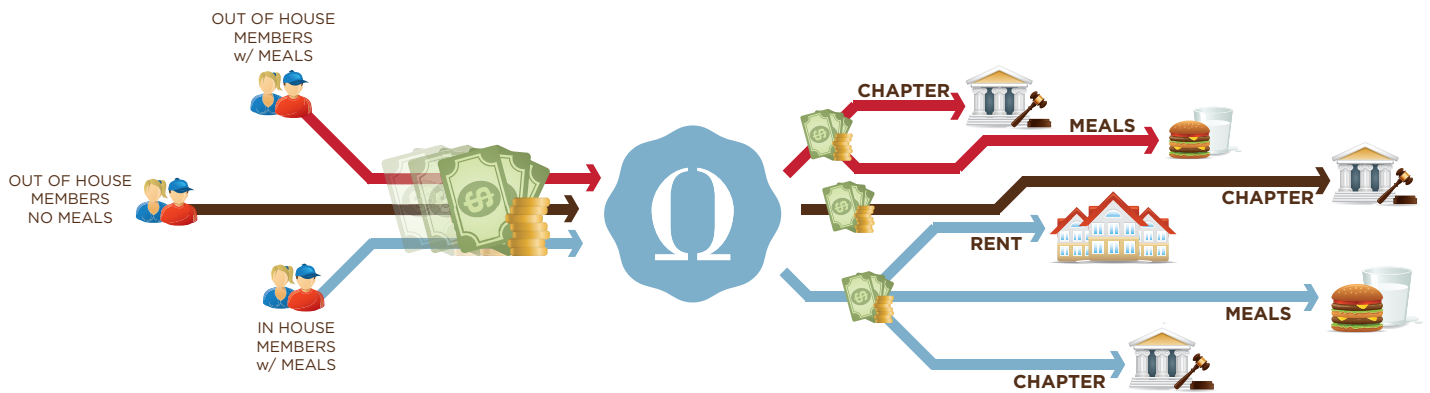

Percentage Split option:

The chapter specifies a percentage of all payments received to be deposited to an alternate account(s) (i.e. House Corporation, Savings, Payroll, Food).

Category Split option:

Funds can be deposited to alternate accounts automatically according to the income categories to which payments are allocated (i.e. Housing Fees, Rent, Parlor Fees, Utilities, Social, Chapter Dues).

Benefits of Deposit Splits:

- Funds are kept separate when needed.
- Options can be utilized to ensure receipt of necessary funds for chapter operation. For example, to ensure that the mortgage is paid even if some members do not pay on a timely basis.
- A cap, or “not to exceed” limit, can be assigned to any deposit split.
- Online reporting is available through OmegaFi’s Chapter DeskTop™ Internet interface.
- There is no cost to implement this cash management service for your chapter.

Your OmegaFi Account Manager can help you establish a deposit split for your chapter anytime. Please contact him/her to learn more at 800.276.6342.
